Subject: Recommendation letter

Dear Sir or Madam,

It is my pleasure to write this letter expressing my highest regard for the job of Mr Tomasz Szymański.

I am very happy to say that I find Mr Szymański very professional and enthusiastic about his work.

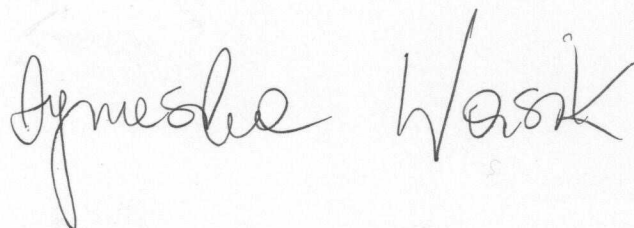

I strongly recommend Mr Tomasz Szymanski because of his knowledge, professional ethic, abilities, skills and desire to support goals of his students.

I have known Tomek for nearly 2 years. He has always been conducting his lesson with learning plan, efficiency and effectively. He is able to create friendly atmosphere during the meetings which support a learning process. One of his greatest attributes is passion for creating new skills his student and for teaching people how to improve their abilities. Every student is unique, everyone has different needs and limitations. The most important for Tomek to recognise the needs and limitation of his students in order to support them. He has still been searching for the best way to make progress. Tomek never gives up, he never lives his students lonely without any assistance during the learning process. The magic power of his personality skills makes the extremely difficult issues easier and nice to work.

Although we have been working hard I have never been bored with our meeting or tired.

I have made huge progress working with Tomek.

Yours faithfully,
